PROFESSIONAL SUMMARY

I am a professional whose motivation is consistently high. My passion for web development leads me to constantly strive to improve and refine my skills.

TECHNOLOGIES

Front End	React.js, Vue.js, Next.js, HTML, CSS (SASS / LESS / Tailwind / PostCSS), MobX, Redux, JavaScript, TypeScript, PHP basics
Back End	Node.js, Express.js, WebSocket, Django, nginx, gunicorn, AWS, Python, Docker basics
Data Stores	MySQL, SQLite, PostgreSQL basics

EXPERIENCE

Personal blog - (learning experience) - 06.2024

- Leveraged Django's MVC architecture for efficient data management and presentation.
- Implemented a robust database system to store and retrieve information regarding blog posts and portfolio items.
- Integrated HTML templates to ensure an aesthetically pleasing and responsive user interface.
- Deployed the project on an AWS server to guarantee reliable and scalable performance.

Football club - (learning experience) - 05.2024

- The website is written on Next.js framework using pure javascript.
- The website contains information about the soccer club, which is stored in .json format.

Articles - (learning experience) - 04.2024

- Developed a Next.js website.
- Integrated MySQL database for storing article data.
- Implemented loading and viewing of articles by ID.

Aviasales - (learning experience) - 03.2024

- Created a web application for convenient airline ticket searching.
- Implemented TypeScript for strict typing of data.
- Users can filter and sort tickets by airlines, prices, and durations, ensuring ease of selection.

Kanban board - (learning experience) - 02.2024

- Developed a Kanban board facilitating efficient task management.
- Displayed tasks in various statuses: Backlog, Ready, In Progress, and Finished.
- Implemented functionality for users to easily move tasks between columns, ensuring transparency and workflow organization.

Courses

Skillfactory - Frontend developer | 2023 - 2024

During the course I have learned how to work with technologies such as: React, TypeScript, MySQL, Jest, GraphQL, Express, Node, Redux and Websocket.

Languages

English - Intermediate/Pre-Intermediate, Latvian - B1/2, Russian - Native
